Detailed Action

Response to Amendment

1. Applicant's arguments filed on 4/4/2005 regarding claims 16-18, 20-22 have been fully considered. Claims 1-15, 19, 23-24 have been canceled by the Applicant.

2. Acknowledgement is made of the amended claim 21 and canceled claims 13, 24 regarding the deficiencies of claims 13, 21, 24 cited in the previous Office Action. The correction to claim 21 is acceptable and the claim objections to claims 13, 21, 24 have been withdrawn.

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

The present application relates to providing an apparatus to perform the method for improving time precision in a network, including the unique steps of:
“storing said time of reception in an auxiliary timestamp external to the information packet in a manner that is transparent to said transmission protocol without any updating of said error checking code;
associating each auxiliary time stamp with the respective incoming information packet; and
using the time of reception data in the auxiliary timestamps and the scheduled time of transmission data in the information packets to synchronize the first clock to the second clock,

wherein said network time protocol is an existing time protocol and said transmission protocol is an existing transmission protocol,

wherein the arriving packets are sent to a receive buffer after the auxiliary timestamp has been stored and

wherein no changes are made to physical layer drivers or to any of ISO rules for packet structure, at all network layers.”

The closest prior art, Takeda (US Publication 2002/0055999), discloses a monitoring network for measuring quality of service by detecting a difference between inflow timestamp and outflow timestamp. However, Takeda fails to anticipate or render obvious the above quoted limitations of the present application. This renders the claims allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
